Legal Hold Pro™

INDUSTRY LEADING LEGAL HOLD SOFTWARE FOR CORPORATE LEGAL TEAMS

Legal Hold Pro™ is the leading legal hold and preservation software solution for corporate legal and compliance teams. From one intuitive system, teams can quickly and easily fulfill their preservation obligation by initiating legal holds and collaborating with IT to preserve and collect data. With Legal Hold Pro, teams can defensibly reduce the effort, cost and risk associated with corporate litigation and compliance.

Automate your legal hold workflow

Reduce the time and resources required to respond to litigation and compliance events by automating key steps of legal hold process, including initiating legal holds, tracking custodian responses, sending reminders, collaborating with IT to preserve data, and creating reports.

Improve the defensibility of your preservation process

Improve custodian compliance with legal hold requests and automatically apply in-place litigation holds in Microsoft® Office 365® to preserve content. Create a complete audit trail of all preservation activities and be confident in the defensibility of your preservation and collection practices.

Get visibility into the status of legal holds

Empower your team to take control of the e-discovery process with easy-to-use software that is accessible from any device. Get real time visibility into the status of legal holds and reduce dependence on IT support and outside counsel to speed response times and manage costs.

Secure your data

Rest assured your data is protected by industry-leading security practices and SOC 2® Type 2 certification, which demonstrates adherence to information security, availability, integrity, confidentiality and privacy best practices.

“The ease of use, reporting functionality and customer service is second to none.”

– Anthony Landrosh, Data Integrity Supervisor, Winston & Strawn

“We have a much higher compliance rate, a better understanding across the company about what legal holds are, and the time savings has been amazing.”

– Jennifer Chermoshnyuk, Litigation Hold Manager, Davis Wright Tremaine LLP

Z-Discovery Preservation Package gives peace of mind to corporate legal teams

Bundle Data Collect Pro™ with Legal Hold Pro™ and CloudPreserve™ to create a complete preservation and collection solution.

Legal hold management

- Manage legal hold templates, notifications and responses in one central repository.
- Quickly create and send legal hold notifications to custodians.
- Track responses and automatically trigger reminders and escalations.
- Issue silent custodian holds for sensitive matters.
- Send data preservation tasks to IT and track status.
- Modify, add recipients or reissue legal holds in a few simple clicks.

Custodian management

- Allow custodians to respond to holds from any device without logging into a portal.
- Gather additional insights through custodian questionnaires.
- Integrate with Active Directory and HR systems to pull in up-to-the-minute custodian data.
- Get regular reports on custodian changes, such as employee status, role, name and department.

Reports

- View insightful reports on legal hold workflow, custodian response rates and more.
- Create a complete audit trail of all preservation activities, including legal hold notifications, custodian responses and collections.
- Track compliance rates and identify custodians to target for additional follow up.

Ease of use

- Leverage cloud-native architecture and intuitive platform to get up and running in hours — not weeks.
- Scale for growth without investing in infrastructure and enjoy predictable pricing with no support contacts or maintenance fees.
- Receive dedicated customer support during implementation and free training and support for the lifetime of your account.
